Brian has over 20 years of experience in the utility industry. He has managed a wide array of power generation assets including nuclear, natural gas turbines, reciprocating engines, biogas, wind and solar. In addition to operating experience, Mr. Meek was the Safety and Human Performance Manager at Prairie Island Nuclear Plant in Minnesota. Brian holds a bachelor's degree in Nuclear Engineering Technology, a Master of Business Administration, and is currently pursuing a doctorate degree in Leadership; studying employee turnover in the municipal utility industry. Brian is a veteran of the US Navy.
